I am a **BCA student in my 4th semester**, passionate about **Data Engineering, Software Development, and Problem-Solving**. I have completed **virtual internships in Java (CodSoft) and Front-End Development (ApexPlanet)**, gaining hands-on experience in building web applications and working with Java technologies.
I am actively improving my **DSA skills** by solving problems . Additionally, I am learning **Data Engineering course** to expand my technical expertise.

Skills

- Python
- CSS, HTML
- SQL
- Java

Professional Experience

Intern
CodSoft , Remote (Virtual Java Intern)

- Developed Java-based applications and implemented Object-Oriented Programming .
- Gained hands-on experience with core Java concepts like Collections, Exception Handling, and Multithreading.
- Strengthened coding efficiency and best practices in Java development.

Intern
ApexPlanet , Remote (Virtual Frontend Web developer)

- Developed responsive web pages using HTML, CSS, and JavaScript.
- Implemented interactive UI components to enhance user experience.
- Worked with CSS Flexbox & Grid for efficient page layouts.
